

Hurlstone Agricultural High School

Works notification | 30 August 2024

Work to upgrade the Principal's Residence in Clarke House (E Block) will start on Monday 2 September 2024 and is anticipated to be completed by 15 October 2024, weather permitting.

Remediation works

The upgrade will involve working with known bonded asbestos-containing materials in the laundry, bathroom, living and hall areas of Clarke House, as listed in the school's asbestos register. As a precaution, safety measures including temporary fencing and air monitoring will be in place until the work is complete.

All remediation work will take place between 9 - 27 September 2024 and will be done in accordance with work, health and safety laws as well as the NSW Department of Education Asbestos Management Plan. The remediation will be undertaken by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

An independent hygienist will inspect the Principal's Residence to confirm it has been fully remediated. The school will receive a clearance certificate before the Principal's Residence is reopened.

Working hours

Working hours will be 7am to 5pm Monday to Friday, and 8am to 3pm Saturday. Noisy works or activities will start from 9am on Saturdays, with other non-noise generating site activities to start from 8am. No work will take place on Sundays or public holidays unless otherwise notified.

All work involving asbestos containing materials will take place when students and staff are not in the building.

The health, safety, and wellbeing of the school and local community is our highest priority. We will keep the community updated. For more information about asbestos, visit the NSW Health website: health.nsw.gov.au/environment/factsheets.
