CREATIVE ARTS

MUSIC 1

OUTCOMES

Through activities in performance, composition, musicology and aural, a student:

- **H1** performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
- **H2** reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
- **H3** improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
- **H4** articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
- **H5** critically evaluates and discusses performances and compositions
- **H6** critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
- **H7** understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
- **H8** identifies, recognises, experiments with, and discusses the use and effects of technology in music
- **H9** performs as a means of self-expression and communication
- **H10** demonstrates a willingness to participate in performance, composition, musicology and aural activities
- **H11** demonstrates a willingness to accept and use constructive criticism

CREATIVE ARTS

VISUAL ARTS

OUTCOMES

A student:

H1 initiates and organises artmaking practice that is sustained, reflective and adapted to suit particular conditions H2 applies their understanding of the relationships among the artist, artwork, world and audience through the making of a body of work Н3 demonstrates an understanding of the frames when working independently in the making of art Н4 selects and develops subject matter and forms in particular ways as representations in art making **H5** demonstrates conceptual strength in the production of a body of work that exhibits coherence and may be interpreted in a range of ways Н6 demonstrates technical accomplishment, refinement and sensitivity appropriate to the artistic intentions within a body of work H7 applies their understanding of practice in art criticism and art history Н8 applies their understanding of the relationships among the artist, artwork, world and audience demonstrates an understanding of how the frames provide for different orientations to critical and Н9 historical investigations of art H10 constructs a body of significant art histories, critical narratives and other documentary accounts of representation in the visual arts

ENGLISH

ENGLISH ADVANCED

OUTCOMES

- **EA12-1** Independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure
- **EA12-2** Uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies
- **EA12-3** Critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning
- **EA12-4** Strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts
- **EA12-5** Thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments
- **EA12-6** Investigates and evaluates the relationships between texts
- **EA12-7** Evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued
- EA12-8 Explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning
- **EA12-9** Reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner

ENGLISH

ENGLISH EXTENSION 1

OUTCOMES

- **EE12-1** Demonstrates and applies insightful understanding of the dynamic, often subtle, relationship between text, purpose, audience and context, across a range of modes, media and technologies
- **EE12-2** Analyses and experiments with language forms, features and structures of complex texts, discerningly evaluating their effects on meaning for different purposes, audiences and contexts
- **EE12-3** Independently investigates, interprets and synthesises critical and creative texts to analyse and evaluate different ways of valuing texts in order to inform and refine response to and composition of sophisticated texts
- **EE12-4** Critically evaluates how perspectives, including the cultural assumptions and values that underpin those perspectives, are represented in texts
- **EE12-5** Reflects on and evaluates the development of their conceptual understanding and the independent and collaborative writing and creative processes

ENGLISH

ENGLISH EXTENSION 2

OUTCOMES

- **EEX12-1** demonstrates a deep understanding of the dynamic relationship between text, composer, audience and context through the conceptualisation and execution of an extended composition using appropriate mode, medium and technology
- **EEX12-2** strategically and effectively manipulates language forms and features to create a substantial extended composition for a specific purpose, audience and context
- **EEX12-3** applies knowledge, understanding and insight, refined through analysis, interpretation, criticism and evaluation of strategically chosen texts, to shape new meaning in an original composition
- **EEX12-4** undertakes extensive independent investigation to articulate a personal perspective that explores, challenges, speculates or evaluates a significant situation, event or idea
- **EEX12-5** reflects on and evaluates the composition process and the effectiveness of their own published composition

ANCIENT HISTORY

OUTCOMES

A student:

AH12-1 accounts for the nature of continuity and change in the ancient world AH12-2 proposes arguments about the varying causes and effects of events and developments AH12-3 evaluates the role of historical features, individuals and groups in shaping the past AH12-4 analyses the different perspectives of individuals and groups in their historical context assesses the significance of historical features, people, places, events and developments of the AH12-5 ancient world AH12-6 analyses and interprets different types of sources for evidence to support an historical account or argument AH12-7 discusses and evaluates differing interpretations and representations of the past plans and conducts historical investigations and presents reasoned conclusions, using relevant AH12-8 evidence from a range of sources communicates historical understanding, using historical knowledge, concepts and terms, in AH12-9 appropriate and well-structured forms

AH12-10 analyses issues relating to the ownership, custodianship and conservation of the ancient past

		Task 1	Task 2	Task 3	Task 4

BUSINESS STUDIES

OUTCOMES

H1	critically analyses the role of business in Australia and globally
H2	evaluates management strategies in response to changes in internal and external influences
Н3	discusses the social and ethical responsibilities of management
H4	analyses business functions and processes in large and global businesses
H5	explains management strategies and their impact on businesses
Н6	evaluates the effectiveness of management in the performance of businesses
H7	plans and conducts investigations into contemporary business issues
Н8	organises and evaluates information for actual and hypothetical business situations
Н9	communicates business information, issues and concepts in appropriate formats
H10	applies mathematical concepts appropriately in business situations

		Task 1	Task 2	Task 3	Task 4
Components (Syllabus)	Weighting % (Syllabus)	Operations Extended Response Term 4, Week 9	Marketing Research Task Term 1, Week 8 2023	Finance Business Report Term 2, Week 8,	Trial HSC Exam Term 3, Exam Period, 2023

ECONOMICS

OUTCOMES

H1	demonstrates understanding of economic terms, concepts and relationships
H2	analyses the economic role of individuals, firms, institutions and governments
Н3	explains the role of markets within the global economy
H4	analyses the impact of global markets on the Australian and global economies
H5	discusses policy options for dealing with problems and issues in contemporary and hypothetical
	contexts
Н6	analyses the impact of economic policies in theoretical and contemporary Australian contexts
H7	evaluates the consequences of contemporary economic problems and issues on individuals,
	firms and governments
Н8	applies appropriate terminology, concepts and theories in contemporary and hypothetical
	economic contexts
Н9	selects and organises information from a variety of sources for relevance and reliability
H10	communicates economic information, ideas and issues in appropriate forms
H11	applies mathematical concepts in economic contexts
H12	works independently and in groups to achieve appropriate goals in set timelines

MODERN HISTORY

OUTCOMES

- MH12-1 accounts for the nature of continuity and change in the modern world
- MH12-2 proposes arguments about the varying causes and effects of events and developments
- MH12-3 evaluates the role of historical features, individuals, groups and ideas in shaping the past
- MH12-4 analyses the different perspectives of individuals and groups in their historical context
- MH12-5 assesses the significance of historical features, people, ideas, movements, events and developments of the modern world
- MH12-6 analyses and interprets different types of sources for evidence to support an historical account or argument
- MH12-7 discusses and evaluates differing interpretations and representations of the past
- MH12-8 plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources
- MH12-9 communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

		Task 1	Task 2	Task 3	Task 4
Components (Syllabus)	Weighting % (Syllabus)	National Study In class Extended Response	Peace & Conflict Historical Analysis Recorded Presentation	Change in the Modern World Research and In class Extended Response	Trial HSC Exam

LANGUAGES

JAPANESE CONTINUERS

OUTCOMES

- **H1.1** uses a range of strategies to maintain communication
- **H1.2** conveys information appropriate to context, purpose and audience H1.3 exchanges and justifies opinions and ideas
- **H1.4** reflects on aspects of past, present and future experience
- **H2.1** applies knowledge of language structures to create original text (written or spoken texts created by students incorporating their own ideas)
- **H2.2** composes informative, descriptive, reflective, persuasive or evaluative texts appropriate to context, purpose and/or audience.
- **H2.3** structures and sequences ideas and information
- **H3.1** conveys the gist of text and identifies specific information
- **H3.2** summarises the main ideas
- **H3.3** identifies the tone, purpose, context and audience.
- **H3.4** draws conclusions from or justifies an opinion
- **H3.5** interprets, analyses and evaluates information
- H3.6 infers points of view, attitude or emotions from language and context
- **H4.1** recognises and employs language appropriate to different social contexts
- H4.2 identifies values, attitudes and beliefs of cultural significance
- **H4.3** reflects upon significant aspects of language and culture

		Task 1	Task 2	Task 3	Task 4

KOREAN BEGINNERS

OUTCOMES

1.1	establishes and maintains communication in Korean
1.2	manipulates linguistic structures to express ideas effectively in Korean
1.3	sequences ideas and information
1.4	applies knowledge of the culture of Korean-speaking communities to interact appropriately
2.1	understands and interprets information in texts using a range of strategies
2.2	conveys the gist of and identifies specific information in texts
2.3	summarises the main points of a text
2.4	draws conclusions from or justifies an opinion about a text
2.5	identifies the purpose, context and audience of a text
2.6	identifies and explains aspects of the culture of Korean-speaking communities in texts
3.1	produces texts appropriate to audience, purpose and context
3.2	structures and sequences ideas and information
3.3	applies knowledge of diverse linguistic structures to convey information and express original ideas in Korean $$

		Task 1	Task 2	Task 3	Task 4

MATHEMATICS ADVANCED

COMPONENTS:

Understanding, fluency and communication 50% Problem solving, reasoning and justification 50%

OUTCOMES:

OUTCOIVILS.	
MA11-1 uses algebraic and graphical techniques to solve, and where appropriate, compare alternative solutions to problems	MA12-1 uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
MA11-2 uses the concepts of functions and relations to model, analyse and solve practical problems	MA12-2 models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
MA11-3 uses the concepts and techniques of trigonometry in the solution of equations and problems involving geometric shapes	MA12-3 applies calculus techniques to model and solve problems
MA11-4 uses the concepts and techniques of periodic functions in the solutions of trigonometric equations or proof of trigonometric identities	MA12-4 applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
MA11-5 interprets the meaning of the derivative, determines the derivative of functions and applies these to solve simple practical problems	MA12-5 applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
MA11-6 manipulates and solves expressions using the logarithmic and index laws, and uses logarithms and exponential functions to solve practical problems	MA12-6 applies appropriate differentiation methods to solve problems
MA11-7 uses concepts and techniques from probability to present and interpret data and solve problems in a variety of contexts, including the use of probability distributions	MA12-7 applies the concepts and techniques of indefinite and definite integrals in the solution of problems
MA11-8 uses appropriate technology to investigate, organise, model and interpret information in a range of contexts	MA12-8 solves problems using appropriate statistical processes
MA11-9 provides reasoning to support conclusions which are appropriate to the context	MA12-9 chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
	MA12-10 constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

MATHEMATICS ADVANCED (continued)

MATHEMATICS ADVANCED ASSESSMENT TASKS

Where possible, the outcomes listed for each task will be assessed. If there is any change to the outcomes being assessed, students will be given due notice.

		Task 1	Task 2	Task 3	Task 4
	Weighting % (syllabus)	In Class Test (non digital references allowed)	In Class Test (with home-made reference sheet)	Investigation Style Task/ Assignment and validation	Trial HSC Exam
		Term 4, Week 9, 2022	Term 1, Week 8, 2023	Term 2, Week 8, 2023	Term 3, Exam period, 2023
Components (syllabus)	Outcomes	MA11-6 MA12-1 MA12-6	MA12-1 MA12-3 MA12-5 MA12-6 MA12-7	MA11-7 MA12-8 MA12-9 MA12-10	MA11-2 MA11-3 MA11-4 MA11-6 MA11-7 MA12-1 MA12-2 MA12-3 MA12-4 MA12-5 MA12-6 MA12-7 MA12-8 MA12-10
Understanding, fluency and communication	50	10	15.5	9.5	15

MATHEMATICS EXTENSION 1

COMPONENTS:

Understanding, fluency and communication 50% Problem solving, reasoning and justification 50%

OUTCOMES:

ME11-1 uses algebraic and graphical concepts in the modelling and solving of problems involving functions and their inverses	ME12-1 applies techniques involving proof or calculus to model and solve problems
ME11-2 manipulates algebraic expressions and graphical functions to solve problems	ME12-2 applies concepts and techniques involving vectors and projectiles to solve problems
ME11-3 applies concepts and techniques of inverse trigonometric functions and simplifying expressions involving compound angles in the solution of problems	ME12-3 applies advanced concepts and techniques in simplifying expressions involving compound angles and solving trigonometric equations
ME11-4 applies understanding of the concept of a derivative in the solution of problems, including rates of change, exponential growth and decay and related rates of change	ME12-4 uses calculus in the solution of applied problems, including differential equations and volumes of solids of revolution
ME11-5 uses concepts of permutations and combinations to solve problems involving counting or ordering	ME12-5 applies appropriate statistical processes to present, analyse and interpret data
ME11-6 uses appropriate technology to investigate, organise and interpret information to solve problems in a range of contexts	ME12-6 chooses and uses appropriate technology to solve problems in a range of contexts
ME11-7 communicates making comprehensive use of mathematical language, notation, diagrams and graphs	ME12-7 evaluates and justifies conclusions, communicating a position clearly in appropriate mathematical forms

MATHEMATICS EXTENSION 1 (continued)

MATHEMATICS EXTENSION 1 ASSESSMENT TASKS

This is a summary of the assessment plan for this course.

Where possible, the outcomes listed for each task will be assessed. If there is any change to the outcomes being assessed, students will be given due notice.

Total assessment for the Mathematics Extension 1 course will be made up of a mark out of 100 from the

Mathematics Advanced course and a mark out of 50 from the Mathematics Extension 1 course.

Those students studying the Extension 1 course will be expected to complete the Advanced assessment tasks as well as the Extension 1 assessment tasks in each testing period.

		Task 1	Task 2	Task 3	Task 4
Components (syllabus)	Weighting % (syllabus)	In Class Test (non-digital references allowed)	In Class Test (with home- made reference sheet)	Investigation Style Task/ Assignment and validation	Trial HSC Exam

TOTAL %	100	20	31	19	30

MATHEMATICS EXTENSION 2

COMPONENTS:

Understanding, fluency and communication 50% Problem solving, reasoning and justification 50%

OUTCOMES:

MEX12-1

understands and uses different representations of numbers and functions to model, prove results and find solutions to problems in a variety of contexts

MEX12-2

chooses appropriate strategies to construct arguments and proofs in both practical and abstract settings

MEX12-3

uses vectors to model and solve problems in two and three dimensions

MEX12-4

uses the relationship between algebraic and geometric representations of complex numbers and complex number techniques to prove results, model and solve problems

MEX12-5

applies techniques of integration to structured and unstructured problems

MEX12-6

uses mechanics to model and solve practical problems

MEX12-7

uses various mathematical techniques and concepts to model and solve structured, unstructured and multi-step problems

MEX12-8

communicates and justifies abstract ideas and relationships using appropriate language, notation and logical argument

MATHEMATICS EXTENSION 2 (continued)

MATHEMATICS EXTENSION 2 ASSESSMENT TASKS

This is a summary of the assessment plan for this course.

Where possible, the outcomes listed for each task will be assessed. If there is any change to the outcomes being assessed, students will be given due notice.

Total assessment for the Mathematics Extension 2 course will be made up of a mark out of 100 from the Mathematics Extension 1 course and a mark out of 100 from the Mathematics Extension 2 course. Those students studying the Extension 2 course will be expected to complete the Extension 1 assessment tasks as well as the Extension 2 assessment tasks in each testing period.

Students studying Mathematics Extension 2 are also required to attend all Mathematics Advanced lessons, complete all course work and complete greater than 50% of the Advanced assessment tasks.

		Task 1	Task 2	Task 3	Task 4

MATHEMATICS STANDARD 2

COMPONENTS:

Understanding, fluency and communication 50% Problem solving, reasoning and justification 50%

OUTCOMES:

MS2-12-1 uses detailed algebraic and graphical techniques to critically
evaluate and construct arguments in a range of familiar and unfamiliar contexts
MS2-12-2 analyses representations of data in order to make inferences, predictions and draw conclusions
MS2-12-3 interprets the results of measurements and calculations and makes judgements about their reasonableness, including the degree of accuracy and the conversion of units where appropriate
MS2-12-4 analyses two-dimensional and three-dimensional models to solve practical problems
MS2-12-5 makes informed decisions about financial situations, including annuities and loan repayments
MS2-12-6 solves problems by representing the relationships between changing quantities in algebraic and graphical forms
MS2-12-7 solves problems requiring statistical processes, including the use of the normal distribution and the correlation of bivariate data
MS2-12-8 solves problems using networks to model decision- making in practical problems
MS2-12-9 chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use
MS2-12-10 uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response

MATHEMATICS STANDARD 2 (continued)

MATHEMATICS STANDARD 2 ASSESSMENT TASKS

This is a summary of the assessment plan for this course.

Where possible, the outcomes listed for each task will be assessed. If there is any change to the outcomes being assessed, students will be given due notice.

Total assessment for the Mathematics Standard 2 course will be a mark out of 100.

		Task 1	Task 2	Task 3	Task 4

PDHPE

PERSONAL DEVELOPMENT, HEALTH & PHYSICAL EDUCATION

OUTCOMES

A student:

H16

Н1 describes the nature, and justifies the choice, of Australia's health priorities H2 analyses and explains the health status of Australians in terms of current trends and groups most at risk Н3 analyses the determinants of health and health inequalities **H4** argues the case for the new public health approach to health promotion **H5** explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities H7 explains the relationship between physiology and movement potential Н8 explains how a variety of training approaches and other interventions enhance performance and safety in physical activity Н9 explains how movement skill is acquired and appraised H10 designs and implements training plans to improve performance H11 designs psychological strategies and nutritional plans in response to individual performance needs H13 selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity H14 argues the benefits of health-promoting actions and choices that promote social justice H15 critically analyses key issues affecting the health of Australian's and proposes ways of working toward better health for all

activity concepts.
 H17 selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation.

devises methods of gathering, interpreting and communicating information about health and physical

Note: outcomes H6 & H12 are optional outcomes and not assessed.

BIOLOGY

OUTCOMES

A student:

Questioning and predicting

BIO11/12-1 develops and evaluates questions and hypotheses for scientific investigation Planning investigations

Planning investigations

BIO11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information

Conducting investigations

BIO11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information

Processing data and information

BIO11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

Analysing data and information

BIO11/12-5 analyses and evaluates primary and secondary data and information

Problem solving

BIO11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

Communicating

BIO11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose

BIO12-12 explains the structures of DNA and analyses the mechanisms of inheritance and how processes of reproduction ensure continuity of species

BIO12-13 explains natural genetic change and the use of genetic technologies to induce genetic change

BIO12-14 analyses infectious disease in terms of cause, transmission, management and the organism's response, including the human immune system

BIO12-15 explains non-infectious disease and disorders and a range of technologies and methods used to assist, control, prevent and treat non-infectious disease

CHEMISTRY

OUTCOMES

A student:

Questioning and predicting

CH11/12-1 develops and evaluates questions and hypotheses for scientific investigation

Planning investigations

CH11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information

Conducting investigations

CH11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information

Processing data and information

CH11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

Analysing data and information

CH11/12-5 analyses and evaluates primary and secondary data and information

Problem solving

CH11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

Communicating

CH11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose

CH12-12 explains the characteristics of equilibrium systems, and the factors that affect these systems

CH12-13 describes, explains and quantitatively analyses acids and bases using contemporary models

CH12-14 analyses the structure of, and predicts reactions involving, carbon compounds

CH12-15 describes and evaluates chemical systems used to design and analyse chemical processes

PHYSICS

OUTCOMES

A student:

Questioning and predicting

PH11/12-1 develops and evaluates questions and hypotheses for scientific investigation

Planning investigations

PH11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information

Conducting investigations

PH11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information

Processing data and information

PH11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

Analysing data and information

PH11/12-5 analyses and evaluates primary and secondary data and information

Problem solving

PH11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

Communicating

PH11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose

PH12-12 describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles

PH12-13 explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively

PH12-14 describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world

PH12-15 explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom

SCIENCE EXTENSION

OUTCOMES

- SE-1 refines and applies the Working Scientifically processes in relation to scientific research
- **SE-2** analyses historic and cultural observations, ethical considerations and philosophical arguments involved in the development of scientific knowledge and scientific methods of inquiry
- **SE-3** interrogates relevant and valid peer-reviewed scientific research to develop a scientific research question, hypothesis, proposal and plan
- **SE-4** uses statistical applications, mathematical processes and/or modelling to gather, process, analyse and represent reliable and valid datasets
- **SE-5** analyses and applies the processes used in reliable and valid scientific research to solve complex scientific problems and inform further research
- **SE-6** analyses and reports on a contemporary issue or an application of science informed by either primary or secondary-sourced data, or both, in relation to relevant publicly available data sets
- **SE-7** communicates analysis of an argument or conclusion incorporating appropriate scientific language and referencing techniques in a scientific report

TECHNOLOGIES

AGRICULTURE

OUTCOMES

- **H1.1** explains the influence of physical, biological, social, historical and economic factors on sustainable agricultural production
- **H2.1** describes the inputs, processes and interactions of plant production systems
- **H2.2** describes the inputs, processes and interactions of animal production systems
- **H3.1** assesses the general business principles and decision-making processes involved in sustainable farm management and marketing of farm products
- **H3.2** critically assesses the marketing of a plant OR animal product
- **H3.3** critically examines the technologies and technological innovations employed in the production and marketing of agricultural products
- **H3.4** evaluates the management of the processes in agricultural systems
- **H4.1** justifies and applies appropriate experimental techniques, technologies, research methods and data presentation and analysis in relation to agricultural problems and situations
- **H5.1** evaluates the impact of innovation, ethics and current issues on Australian agricultural systems

		Task 1	Task 2	Task 3	Task 4
	Weighting % (Syllabus)	Plant Experimental Design	Research Assignment	Elective in class/ Extended response	Trial HSC Exam
Component (Syllabus)		Term 1, Week 4, 2023	Term 2, Week 4, 2023	Term 2, Week 10, 2023	Term 3, exam period, 2023
	Outcomes	H2.1, H3.4, H4.1	H1.1 to H3.4, H5.1	H3.4, H4.1, H5.1	H1.1 to H5.1
Knowledge and understanding of course content	50	10	10	10	20
Knowledge, understanding and skills required to manage agricultural production systems	20		10		10
Skills in effective research, experimentation and communication	30	10	10	10	
TOTAL %	100	20	30	20	30

TECHNOLOGIES

ENGINEERING STUDIES

OUTCOMES

A student:

H1.1 describes the scope of engineering and critically analyses current innovations H1.2 differentiates between the properties and structure of materials and justifies the selection of materials in engineering applications H2.1 determines suitable properties, uses and applications of materials, components and processes in engineering H2.2 analyses and synthesizes engineering applications in specific fields and reports on the importance of these to society H3.1 demonstrates proficiency in the use of mathematical, scientific and graphical methods to analyse and solve problems of engineering practice uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports H3.2 H3.3 develops and uses specialized techniques in the application of graphics as a communication tool H4.1 investigates the extent of technological change in engineering H4.3 applies understanding of social, environmental and cultural implications of technological change in engineering to the analysis of specific engineering problems H5.1 works individually and in teams to solve specific engineering problems and prepare engineering reports H5.2 selects and uses appropriate management and planning skills related to engineering H6.1 demonstrates skills in research and problem solving related to engineering H6.2 demonstrates skills in analysis, synthesis and experimentation related to engineering

		Task 1	Task 2	Task 3	Task 4
Components	Weighting % (Syllabus)	Engineering Report Civil Structures	Drawing Activity	Engineering Report Aeronautical	Trial HSC Exam
(syllabus)		Term 4, Week 9, 2022	Term 1, Week 10, 2023	Term 2,Week 6, 2023	Term 3, exam period, 2023
	Outcomes	H1.2, H2.1, H2.2, H3.2, H5.2	H3.1, H3.3	H1.2,H2.1,H2.2, H4.1, H4.3, H5.1, H5.2	H1.1, H1.2, H2.2, H3.2, H4.1, H4.2, H4.3, H5.1, H5.2, H6.1, H6.2
Knowledge and understand of engineering principles and developments in technology	40	10	5	10	15
Understanding the scope and role of engineering including management and problem solving	25	5	5	10	5
Skills in research, problem solving and communication related to Engineering	35	10	5	10	10
TOTAL %	100	25	15	30	30

TECHNOLOGIES

DESIGN AND TECHNOLOGY

OUTCOMES:

- **H1.1** critically analyses the factors affecting design and the development and success of design projects
- H1.2 relates the practices and processes of designers and producers to the major design project
- **H2.1** explains the influence of trends in society on design and production
- **H2.2** evaluates the impact of design and innovation on society and the environment
- **H3.1** analyses the factors that influence innovation and the success of innovation
- H3.2 uses creative and innovative approaches in designing and producing
- **H4.1** identifies a need or opportunity and researches and explores ideas for design development and production of the major design project
- **H4.2** selects and uses resources responsibly and safely to realise a quality major design project
- **H4.3** evaluates the processes undertaken and the impacts of the major design project
- **H5.1** manages the development of a quality major design project
- **H5.2** selects and uses appropriate research methods and communication techniques
- **H6.1** justifies technological activities undertaken in the major design project through the study of industrial and commercial practices
- **H6.2** critically assesses the emergence and impact of new technologies, and the factors affecting their development

		Task 1	Task 2	Task 3	Task 4
	Weighting % (Syllabus)	Project Proposal	Innovation Case Study & Exam Responses	Report of research and experimentation	Trial HSC Exam
Component (Syllabus)		Term 4,	Term 1,	Term 2,	Term 3, exam
		Week 9, 2022	Week 7, 2023	Week 6, 2023	period, 2023
	Outcomes	H4.1 H4.2 H4.3 H5.1	H1.1 H1.2 H2.2 H3.1 H6.2	H3.2 H4.2 H4.3 H5.1 H5.2 H6.1	H1.1 H1.2 H2.1 H2.2 H3.1 H6.1 H6.2
Knowledge and understanding of course content	40		25		15
Knowledge and skills in designing, managing, producing and evaluating a major design project	60	20		30	10
TOTAL %	100	20	25	30	25
