

# Individual Health Care Plan Cover Sheet

This template forms the cover sheet for an individual health care plan. Additional information and attachments will be relevant to meet the specific health care needs of the student.

*Insert photo of student*

The individual health care plan must address the needs of the student in the context of the school and the activities the student will be involved in. Planning must take into account the student's full range of learning and support needs.

The individual health care plan is developed in consultation with the parent, staff and student, where practicable, and on the basis of information from the student's doctor, provided by the parent.

For more information see <http://www.schools.nsw.edu.au/studentsupport/studenthealth/index.php> and for students with anaphylaxis see the Anaphylaxis Procedures for Schools.

The plan will be reviewed on: \_\_\_\_/\_\_\_\_/\_\_\_\_

*NOTE: Individual health care plans should be reviewed at least annually or when the parent notifies the school that the student's health needs have changed. Principals can also instigate a review of the health care plan at other times.*
